DISPLAY RULES & REGULATIONS PAGE 1 OF 2

LINEAR OR IN-LINE BOOTH

Linear booths have one side exposed to an aisle and are generally arranged in a series along a straight line. Linear booths are ten-feet (10') wide and ten-feet (10') deep, i.e., 10' x 10'. *In-line booths have an eight-foot (8')* back wall height limit unless you submit a Booth Variance Form located on Page 15 and is approved by Show Management.

Display materials should not obstruct or block sight lines of neighboring exhibitors. The maximum height of eight-feet (8') is allowed only in the rear half of the booth space, with a four-foot (4') height limit imposed on all materials in the remaining space forward to the aisle unless you submit a Booth Variance Form and is approved by Show Management. (Note: When three or more Linear Booths are used in combination as a single exhibit space, the four-foot (4') height limitation is applied only to that portion of the exhibit space which is within ten-feet (10') of an adjoining booth).

PERIMETER BOOTH

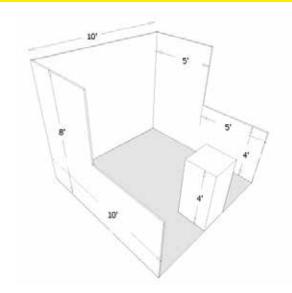

A Perimeter Booth is a Linear Booth that backs up to a wall of the exhibit facility rather than to another exhibit. Perimeter booths have a twelve foot (12') maximum height limitation.

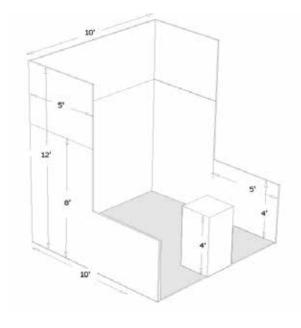

Display materials should not obstruct or block sight lines of neighboring exhibitors. The maximum height of twelve-feet (12') is allowed only in the rear half of the booth, with a four-foot (4') height limit imposed on all materials in the remaining space forward to the aisle. (Note: When three or more Linear Booths are used in combination as a single exhibit space, the four-foot (4') height limitation is applied only to that portion of exhibit space which is within ten-feet (10') of an adjoining booth).

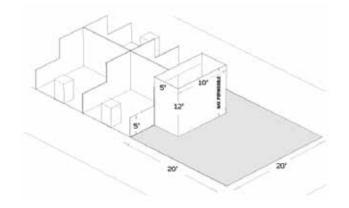

PENINSULA BOOTH

A Peninsula Booth is exposed to aisles on three (3) sides and composed of a minimum of four booths. A Peninsula Booth is 20'x20' or larger.

When a Peninsula Booth backs up to two (2) Linear Booths, the back wall is restricted to four-feet (4') high within five-feet (5') of each aisle, permitting adequate line of sight for the adjoining Linear Booths. Twelve-feet (12') is the maximum height allowance, including signage for the center portion of the back wall.

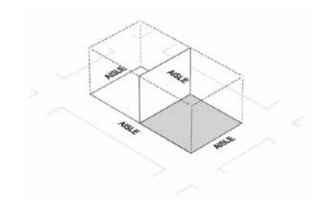

DISPLAY RULES & REGULATIONS PAGE 2 OF 2

SPLIT ISLAND BOOTH

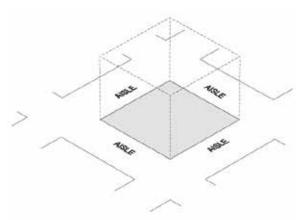

A Split Island Booth is a Peninsula Booth which shares a common back wall with another Peninsula Booth. The entire cubic content of this booth may be used, up to the maximum allowable height, which is sixteen-feet (16'), without any back wall line of sight restrictions. A Split Island is 20'x20' or larger.

ISLAND BOOTH

An Island Booth is any booth exposed to aisles on all four sides. An Island Booth is 20'x20' or larger.

The entire cubic content of the space may be used to the maximum allowable height which is sixteen-feet (16').

PLEASE NOTE:

8' HEIGHT LIMIT EXCEPTION (DUE BY February 2, 2022)

If your booth will exceed the 8' height limit, please fill out the Request For Booth Variance Form, on the next page, and email it to Stephanie Geitner at stephanie@haashow.com.

HANGING SIGNS & GRAPHICS

Hanging Signs and graphics are permitted in peninsula, split island and island booths only to a maximum height of 18' above the booth. Whether suspended from above or supported from below, they should comply with all ordinary use of space requirements (for example, the highest point of any sign should not exceed the maximum allowable height for the booth type).

TOWERS

A Tower is a freestanding exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit configuration being used.

Towers in excess of eight feet (8') should have drawings available for inspection. Fire and safety regulations in many facilities strictly govern the use of towers. A building permit may be required.

If you dispense fog, to create a more comfortable environment for everyone on the Show Floor, only water based fast dissipating fog fluid maybe dispersed in an exhibitor's booth. Other types of fog fluid products may be sold, but not dispersed during the show. If you intend to disperse fog fluid in your products or display, this form must be filled out and submitted to Show Management for approval by February 2, 2022. If you require assistance in determining whether your fog fluid is water based and guick dissipating, please contact Show Management.

Snow machines must be operated on intervals and with appropriate velocity. If your snow is found blowing towards or in another booth you will be asked to turn off your machines and/or redirect them.

If you dispense scents, scents may only be dispensed upon buyer request and at a level as to not annoy neighboring companies and/or buyers in the aisles.

IR (INFRARED) EMITTER FORM

Our intent is to provide all exhibitors the ability to demonstrate their services. If you will be using IR in your booth, please fill out the information below. Feel free to include a diagram if needed.

All exhibitors using IR (Infrared) emitters for the purpose of positional tracking devices commonly found in Virtual Reality and Motion Capture require least three* (3) sides of their booth blocked off with IR absorbent material. This material should be at a height equal to or greater than the installation height of the emitter. IR absorbing material should be near 100% light blocking to prevent infrared light bleed to neighboring booths that may be using similar receiver technology. Low powered IR systems such as Playstation VR, Leap Motion, XBox Kinect, Oculus Rift or HTC Vive may not require IR blocking material based on the proximity to other virtual reality installments. Please notify show management below if you feel that you are using IR emitters which may affect neighboring booths. You may be asked to relocate your booth space to ensure the uninterrupted exhibition of products and services on the day of, if proper protection of IR blocking material is deemed insufficient by show management. Any modifications required to the booth in order to meet these guidelines will be done at the cost of the exhibitor.

*If your booth is not facing another booth, you may be able to only block the two sides adjacent to the other exhibitors' booths. Please inform us if you are seeking this exception. For any other exceptions please notify show management immediately.

Please complete and submit completed form to Stephanie Geitner by February 2, 2022:
